

Defibrillators situated in Redcar and Cleveland Council

November 2024 Update:

Actions to date:

Facilities Management teams have audited locations of defibrillators in Redcar and Cleveland to ascertain the following:

- Where they are located.
- If they are located on a Redcar and Cleveland Council Building.
- Who is the responsible owner of the defibrillator (an individual, group or Redcar Council Officer)
- Is the defibrillator registered.

The following links informed officers what the National Defibrillators Network state is required for registration:

<https://www.defibfinder.uk/>

[The Circuit - the national defibrillator network](#)

Attached in Appendix A, is the list of responses received to date. Personal information has been omitted.

The Facilities Management teams next steps are as follows:

1. If it is RCBC owned (property/site) and RCBC responsibility but not yet registered the service will establish who the Guardians are and direct them to register it and request that they accept/acknowledge enduring responsibility.
2. If it is RCBC owned (property/site) and not RCBC responsibility but is registered the service will confirm who the Guardians/Responsible Persons are and request that they accept/acknowledge enduring responsibility.
3. If it is RCBC owned (property/site) and not RCBC responsibility and not already registered then the service will request that they accept/acknowledge responsibility and register.

Information provided by Carl Lamb, Facilities Manager.
